

Health, Fire Safety and Welfare Policy Goodwyn School (including EYFS)

This policy covers all pupils at Goodwyn School including the Early Years Foundation Stage (EYFS)

Introduction

The health, safety and welfare of all the people who work or learn at Goodwyn School are of fundamental importance. We aim to provide a safe, secure and pleasant working environment for everyone. The Management Team (SLT) takes responsibility for protecting the health and safety of all children and members of staff.

The Principal is accountable for Health & Safety in the school with day to day responsibility delegate to the Manager and SLT. However all staff are aware of their responsibility to ensuring we provide a safe and secure environment for children, staff and visitors through being aware of key risks and reporting any issues to the Manager or a member of the SLT.

There is a standalone policy and risk assessment for Covid-19

The School Curriculum

Children are taught about health and safety in order to equip them with the skills, knowledge and understanding to enable them to live positive, successful and healthy lives. These are taught through all areas of the curriculum and PSHE lessons.

Health and safety issues also arise when pupils are taught to care for the environment. Key Stage 2 children receive sex and drugs education, as appropriate.

School Meals

Goodwyn School provides the opportunity for children to have a meal at lunchtimes. The meals provided have a suitable nutritional value, in line with the requirements of the School Standards and Framework Act of 1998. The School's adherence to health and safety in catering and cleaning of the food preparation and eating areas is thoroughly

actioned and inspected by Barnet Environmental Department, with consideration for hygiene and safety of food storage, meal preparation and food serving.

If children choose to bring their own packed lunch, they are provided with a suitable place to eat their lunch, and they are supervised during this time.

Goodwyn School promotes a healthy lifestyle through its healthy snacks and meals as well as its PE curriculum.

School Uniform

Parents are asked to equip their children with the necessary uniform and school equipment, so that they are able to participate fully in all school activities. If a child repeatedly attends school without the correct uniform or PE equipment, we will inform parents and request that they make sure their child leaves home with the proper uniform.

Goodwyn School has a sensitive approach where the issue of regulations regarding uniform conflict with any child's religious or cultural beliefs. Parents can discuss with the class teacher any issues relating to their child's appearance if this is influenced by religious belief.

On grounds of health and safety children do not wear jewellery or accessories in our school. The exception to this rule is earring studs in pierced ears. Children either to remove these during PE and games or to cover them with a plaster.

Safeguarding (Full details are contained in our Safeguarding policy)

The Head Teacher is the Designated Safeguarding Lead and the SENCo is the Deputy Safeguarding Lead and as such are responsible for child protection in the school.

If any teacher suspects that a child in their class may be the victim of abuse, they should immediately inform the named person about their concerns. We use a secure online system called My Concerns to log any safeguarding concerns. Staff have received training in this.

When necessary the named child protection officer works with social services and MASH (Multi Agency Safeguarding Hub) services when investigating such incidents. All cases are dealt with sensitivity and paramount importance is placed on the interests of the child.

All adults employed in school are required to have their application vetted through police records and or DBS in order to ensure that there is no evidence of offences involving children or abuse. (See Safer Recruitment policy for more detail).

School Security

All adult visitors to the school who arrive in normal school hours are required to sign the visitors' book in the reception area, and to wear an identification badge/lanyard at all times whilst on the school premises. Identification is checked for visitors not known to the school.

Teachers will not allow any adult to enter their classroom if the school visitor's badge/lanyard does not identify them.

If any adult working in the school has suspicions that a person may be trespassing on the school site, they must inform a member of SLT immediately and they will warn any intruder that they must leave the school site straight away. If SLT has any concerns that an intruder may cause harm to anyone on the school site, the police will be contacted.

Safety of Children

Children should walk at all times when moving around the school.

Children are not allowed to climb on or over any of the walls, gates or fences within the school grounds.

All safety guidelines as listed in the various policies and schemes of work should be strictly adhered to. Teachers should consider carefully how best to use such equipment as glue guns, hand tools, food technology equipment etc. and use a risk assessment form as necessary.

Staff and children should be fully aware of what to do in an emergency such as a fire. Practices for such eventualities will be undertaken once per term.

Children should be properly supervised at all times but levels and degrees of supervision will vary depending on the activities being undertaken and the ages of the children involved.

It is the responsibility of each teacher to ensure that all curriculum activities are safe in particular offsite activities, trips and outings. If a teacher does have any concerns about pupil safety, they should draw them to the attention of SLT before the activity takes place and complete a risk assessment form. An Outings Form is required for any trips and must be completed prior to the day of the trip.

If an accident does happen, resulting in an injury to a child, the teacher will do all s/he can to aid the child concerned. A first aid box in the Medical Room is taken to all events. There are nominated staff at the school have been trained in first aid.

Should any incident involving injury to a child take place, a nominated person of staff will be called to assist. If necessary, the school will telephone for emergency assistance.

We record all incidents involving injury in the school accident book, and parents are informed. Should a child be quite seriously hurt, parents are contacted through the emergency telephone number that we keep on the school files.

Our First Aiders are responsible for checking that all first aid boxes, eye wash stations, asthma inhalers and epipens are monitored and replenished as necessary.

General Safety

The requirement to provide a safe and healthy working environment for all employees is acknowledged and the school recognise and take responsibility for compliance with the statutory duties under the Health and Safety at Work etc Act 1974.

All places and premises where staff and pupils are required to work and engage in school activities are maintained in a condition which is safe and without risk to health. (This includes the health and safety of persons on school premises or taking part in school activities elsewhere e.g. work experience and off-site visits)

All plant and equipment is safe to use and arrangements exist for the safe use, handling and storage of articles and substances at work.

Low windows in classrooms are fitted with window stops to prevent them being opened beyond a set point to prevent children from falling out or accessing a flat roof space.

Appropriate safe systems of work exist and are maintained

Sufficient information, instruction, training and supervision is available and provided to ensure that staff are competent to do their tasks and pupils can avoid hazards and contribute in a positive manner towards their own health and safety and others

A healthy working environment is maintained including adequate welfare facilities.

Electrical & Gas Safety

The school carries out independent electrical and gas safety checks on a regular basis and tests all portable electrical appliances which are over twelve months old every two years.

Legionella Control

The school has a written scheme of checks and monitoring procedures based on requirements of the Health and Safety at Work Act 1974, the Control of Substances Hazardous to Health Regulations 2002 concerning the risk from exposure to Legionella and guidance on compliance with the relevant part of the Management of Health and Safety at Work Regulation 1999. Additionally, it incorporates guidance from the HSE on managing Legionella at work

Emergency Lock Down Procedure

Lock down is an emergency system (A protocol followed in an emergency that involves confining people in a secure place for their safety and protection). Lock down will be executed in the case of a threatened attack by terrorist, rioters, or any person with the intent and the ability to harm the children and staff of the Goodwyn from outside the school or in the close proximity of the school.

Alerts

A message can be sent through the telephone system.

Dial 888 on the telephone to activate a phone broadcast = Alert all who may be by or near a phone of the attack with the following message:

“Your attention please. Your attention please. Our lock down procedure has been activated. Please alert others and quickly and calmly move to your lock down locations.”

The school bell will be sounded for a count of at least ten seconds. The bell control is located outside the SENCo office. It is activated by moving the rocker switch on the right-hand side of the panel to the bottom. It is switched off by returning the switch to the central position. If you hear the telephone alert and are near the bell control before the bells have been sounded please sound the bells.

Staff with children outside the main school grounds will be contactable via mobile phone and therefore will carry this with them when on the games field, at the gym or pool, or using the Garden room.

RUN IF YOU CAN: HIDE IF YOU CAN'T RUN: TELL (CALL 999 TO ALERT)

If safe and possible all blinds to be drawn down. Do not adjust the blinds if you are with the children, the importance is to keep them calm and distracted from the emergency.

DO NOT GO AROUND TO THE FRONT OF THE SCHOOL BUILDING AND AVOID THE ROAD SIDE PLAYGROUND AREA.

KEEP LOW AND QUIET AT ALL TIMES

Only move when you see in person a member of the Senior Leadership Team

Please see overleaf for list of lock down locations and routes.

Lockdown locations and routes

		EYFS			KS1				KS2			
Location	Nursery (both)	LKG K	LKG M	UKG CM	UKG LM	Trans M	Trans W	L-Remove	Remove	L-Prep	Prep	
Classroom	Nursery Cloakroom (doors bolted)	Back basement cloakroom (doors bolted)		Own Classroom (under desks, lights off)	Back basement cloakroom (doors bolted)	Own Classroom (under desks, lights off)		Own Classroom (under desks, lights off)				
Hall (Lunch)	Nursery Cloakroom directly from hall	Back basement cloakroom via severy door		Back basement cloakroom via severy door		Front basement cloakroom via severy door		Own classroom. Exit via metal steps to playground, up metal steps and through Nursery to stairs up to own rooms		Own classroom via severy door and up stairs.

Other 1st / 2nd floor location (Art, ICT, Library)		All to remain in location until advised otherwise. Staff room can also be used if additional space is required										
Games field, Gym, Pool, Garden Room		Staff in charge will be contacted via mobile phone and should remain with the children at those locations until given the all clear.										

Staff actions and locations

External doors	Ensure any external doors on your route are closed and locked e.g. if entering the building from the playground.
Staff in staff room	Please assist where you can, only if possible, join your class, as in an emergency you are the one the children will need reassurance from. NEVER PUT YOURSELF IN ANY DANGER OR TAKE RISKS. If it proves difficult to join your class use the Art room or remain in the staff room on the floor, with the door closed.
Kitchen staff in the kitchen / hall	Close the outside kitchen door if possible. If children are in the playground please ensure the hall door is open and remain in the hall to escort children close the hall door. Proceed to the front basement as your lock down location.
Other staff	Consider the area of the school you are in and move swiftly to your nearest lock down point. This may be the room that you are currently in.

DO NOT GO AROUND THE FRONT OF THE SCHOOL BUILDING AND AVOID THE ROAD SIDE PLAYGROUND AREA. KEEP LOW AND QUIET AT ALL TIMES. ONLY MOVE WHEN YOU SEE IN PERSON A MEMBER OF THE SENIOR LEADERSHIP TEAM

Security

Daily School Security

The school doors must be kept closed at all times. Gates leading into the school grounds must be shut and locked. In the event of large deliveries to the school then the door or gate being used must be manned.

Locking times for the gates:

- Locked at 08:50 after drop off time for children
- Unlocked between 12:00 to 12:10, 15:10 to 15:20 and 15:40 to 15:50 to allow children to exit the grounds at pick up times.
- Clubs exit via the front of the building only at 16:15 and 16:45. Club leaders are responsible for unlocking and locking the front gates.

All doors around the school must remain closed. (Under current Covid-19 controls the basement and side entrance doors are opened to increase ventilation. These entrances lead directly to the playground, which is secured by bolted gates and high fencing.)

Once the Nursery door has closed for the morning ensure parents do not exit using it. (Under current Covid-19 control measures Nursery children are dropped off at the Nursery gate and therefore parents do not enter the building via this door.) This door is a fire escape and as such should not be locked or blocked by any equipment.

Visitors to the school must be made known to the front office.

Children arriving late must be signed in the Late Book.

Children who have reason to leave school early must be signed out in the Home Early Book by the collector.

After the end of the normal school day there are usually members of staff remaining on the premises for some time. However, as this is not always the case, it is essential that the following guidelines are carried out:

1. All windows are closed and secured.
2. All lights are switched off.
3. Blinds pulled down closed
4. Classroom doors are closed

It is to be noted that all members of staff should be aware of the main doors and that when they leave the building, ensure that the door is securely closed behind them.

During the day, staff members are asked to safeguard their own personal property.

School Trips

No child is taken off the school site without the prior permission of the parent. All coaches and mini-buses used by the school must have seat belts provided. Children are monitored by teachers to ensure they use seat belts at all times when the bus is moving.

Risk assessments will be written for activities onsite where necessary and for all offsite trips and visits.

Our trips and visits planning includes ensuring a sufficient number of staff with First Aid training. This is checked in advance as part of the trip and risk assessment approval process. There is an 'outings' pack to help teachers prepare of which the Missing Child policy is part.

Theft or other Criminal Acts

The teacher or SLT will investigate any incidents of theft involving children.

If there are serious incidents of theft from the school site, a member of SLT will inform the police and record the incident in the incident book.

Should any incident involve physical violence against a teacher, this will be reported to the SLT. Support will be offered to the teacher in question if he or she wishes the matter to be reported to the police.

Fire Safety

IN THE CASE OF FIRE

It must be made clear, in the event of fire; it is the first duty of all concerned to prevent injury or loss of life. It is therefore essential that all members of staff are familiar with fire bells, exits and extinguishers and evacuation maps. These are located in each room and found by each door. Ensure that you are aware of how to use them.

In the event of fire, the alarm will automatically be sounded.

The procedure for leaving the school should follow the same principle as all our movements as a class around the school:

- No running.
- Remain silent.
- Keep to the left.
- Line up in silence.

Ensure, where possible, that any doors surrounding the fire situation are closed.

Have the Fire Brigade been notified and by whom?

- Dial 999 (Press Line 1, 2 or 3 for an outside line)
- Give operator the telephone number and ask for FIRE
- When the Fire Brigade replies, give this message distinctly:
- Ensure the school telephone number is memorised

“FIRE AT GOODWYN SCHOOL, HAMMERS LANE, MILL HILL, NW7”

Do not replace the receiver until the address has been repeated by the Fire Brigade.

CALL THE FIRE BRIGADE IMMEDIATELY TO EVERY FIRE OR ON SUSPICION OF FIRE.

FIRE DRILL

The exits are allocated for use in “safe” circumstances (obviously if a staircase is impassable then common sense should prevail). If your designated exit door appears busy then use the nearest alternative exit if free. Each room in the building will contain a laminated map to describe your exit while occupying that room. Please ensure you are familiar with these.

Ensure the Fire Brigade have been notified and by whom.

When the fire alarm sounds the following procedure must be followed by all members of staff and children.

- Everybody will immediately stop whatever it is they are doing and stand.
- All children will remain standing still whilst the teachers and other adults issue clear and precise instructions as to what they should do.
- The nearest or safest exit will be used *See Fire Escape Route in the room you are using*. Children will be required to walk in an orderly and quiet manner, going in pairs down any stairs and line up at the exit, which will be opened by the teacher or adult. If the nearest exit is blocked or congested use an alternative safe route. **DO NOT STOP TO COLLECT PERSONAL BELONGINGS**
- The children will leave in an orderly manner under the supervision of the adult. The adult must make sure that all the children have left the room. Fire doors will close automatically. EYFS staff need to be cautious about the closing of the door by ensuring that a member of staff holds the door open until the end of the line. The Bursar and Manager will check all toilets before exiting.
- All adults and children will walk out of the building into Hammers Lane in silence, *(those already in Hammers Lane should give priority to those still exiting the school grounds)* turn left and walk towards Milton Road. Turn left into Milton Road and proceed down the road into Birbeck Road and then left into Tennyson Road. Wait in Tennyson Road in continued silence at no 32 for the All Clear signal before returning to school. All kitchen staff and clerical staff will leave by the nearest or safest exit and follow the staff and children on the same route. If any adult believes they are the last person to leave through an external door they should close it behind them if it is safe to do so.
- **IN THE EVENT OF A FIRE PRACTICE/DRILL PLEASE WAIT AT No 25 MILTON ROAD FOR YOUR REGISTER AND SIGNAL TO RETURN TO SCHOOL**
- The office staff will bring with them attendance list, visitors book, late and early books with the PIC’s and staff address box from their centrally held place. The presence of

all children will be immediately checked by the class teachers. The Chef/Manager must ensure all her staff are present. The Principal or most senior member of staff will check on all other members of staff.

- At no time until the All Clear is given will any member of staff or any child re-enter the building.

Other actions to be taken:-

- If the fire alarm sounds, the secretary or the most senior member of staff will contact the emergency services and consult the alarm panel to find the source of the fire. See the coloured design of the school by the fire alarm box. Do not reset the fire alarm this must be left for the Fire Services to view. The bell may be turned off but do not reset.
- Children need to be taught what to do if they find themselves without adult supervision when the alarm sounds. e.g. in the library or in the toilet. They must immediately leave the area they are in and walk from the nearest or safest exit and meet the rest of the school in Hammers Lane and report to a member of staff. The member of staff will escort the child to their class and hand the child to the teacher or person in charge of their class. Do not re-enter the school.
- Members of staff must not attempt to fight any fire other than when it is of a very minor nature and any attempt to prevent injury to others must not put their own safety at risk. Their main concern should be to evacuate the building and take a head count.
- The building should be evacuated and all staff and children accounted for within 2 minutes.
- Fire drills will take place at least once a term.
- The fire evacuation procedure must be displayed in every room throughout the school.

NEVER CANCEL THE FIRE BELL EVEN IN THE CASE OF A FALSE ALARM. THIS MUST BE SEEN BY THE FIRE OFFICER ON ARRIVAL AT THE SCHOOL

FIRE PREVENTION

Ensure all staff is aware of fire prevention.

- All smoke / fire doors remain closed at all times. (Under current Covid-19 controls classroom doors may be open for increased ventilation. All these doors have automatic door closers and will shut when the alarm sounds)
- All art and craft displays are located away from possible ignition.
- All kitchen staff is to be especially aware of fire dangers.
- Fat deposits should be removed regularly from oven ranges, hoods and ducts.
- Smoking is not permitted in school.
- Electrical equipment should not be kept in any corridors or entries.
- Waste materials are stored outside of the school buildings in a locked area pending weekly collection.

The school has a suitable fire risk assessment which is reviewed annually or when significant changes are made to the interior of buildings, or new buildings are bought or added.

In addition to the weekly fire alarm tests, the alarm system, together with all smoke detectors, emergency lighting, extinguishers are tested annually by a qualified contractor.

Health and Fire Safety is a standing item on the agendas for Key Stage meetings, all of which are minuted and regular fire drills take place.

Accident analysis

SLT is responsible for maintaining an accident book and reporting notifiable accidents keeping statistics and preparing summary reports on School Health and Safety. SLT regularly consider a report including statistics on accidents to pupils, staff and visitors and implementing improvements as necessary.

Staff

The co-operation of all staff is essential to the success of the Policy. The School requires staff to alert their Key Stage Leaders to any hazards to health and safety which they notice and to notify them of any suggestion they wish to make regarding health and safety. Staff have regular Fire Safety training.

Monitoring and Review

SLT has responsibility for health and fire safety matters. It is the responsibility of SLT to keep informed of new regulations regarding health and safety, and to ensure that the school regularly reviews its processes and procedures with regard to health and safety matters

The following are reviewed regularly by SLT

- Safety and security
- Fire safety
- Electrical safety (PAT testing takes place every two years)

The SLT, in consultation with professional advisors, carries out regular risk assessments to ensure that the school is a safe environment.
