

**KS2 Clubs (Lower Remove, Remove, Lower Prep and Prep) for Autumn Term
2025**

Club Description

Cost for Autumn Term: £90.00

Mondays

Basketball Club with Mr Bird

This club is suitable for all girls and boys who want to try some basketball. We will work on adapting some of the skills we have covered in netball in PE but will also develop dribbling and shooting. Additionally, children will learn the basic rules of basketball during gameplay.

Animation Club with Ms Ostryn

Budding Movie Makers, come and explore stop motion where you will learn how to plan and create storyboards, design characters and build sets to put your movie together. Bring your ideas to life through the magic of animation.

Tuesdays

Chess Club with Mrs Llewellyn

Get ready to embark on an extraordinary journey into the incredible world of chess. Join our chess club and unlock the power of your mind as you learn to outsmart your opponents with every move. Discover the secrets of this ancient game, sharpen your problem-solving skills, and unleash your inner genius. Have fun with your friends over a relaxed game, participate in thrilling tournaments, and experience the joy of victory. Whether you're a beginner or a budding grandmaster, our chess club is the perfect place to challenge yourself, have fun, and become a true chess champion!

Slime Time Club with Mrs Kirschner

Get ready for the ultimate hands-on, squishy, stretchy, and gooey experience at Slime Time Club! In this exciting new club, you'll become a slime scientist,

Wednesdays

Team Building with Mrs Khalid

This term, Team Building Club have super challenges like bottle flip relay, balloon tennis, Minecraft hop, princess rescue, spaghetti towers and many more fun team activities lined up for you. Teams that can build together, create in a group, decode with your team and solve puzzles are in for a treat! This club encourages children to show leadership skills, accept defeat gracefully and enjoy the wins humbly. To become a great team player, join this super fun club now!

Thursdays

3D Printing Club with Mrs Kirschner

Create, Design, Print

Unleash your creativity in our exciting new 3D Printing Club! This hands-on club introduces kids to the world of design and innovation, where imagination comes to life—layer by layer. Over the term, students will design and create two unique projects, learning the basics of 3D modelling, problem-solving, and printing along the way. From gadgets to custom keepsakes, they'll watch their digital creations transform into real-world objects using cutting-edge 3D printers. No prior experience needed—just curiosity and creativity!

Drama Club with Miss Marks and Mrs Cooper

Drama Club is a great way to build teamwork skills while working together to bring a play to life. As you step into a character's shoes, you'll gain confidence in performing and speaking in front of others. Whether you're cast as a child, a parent, or even a detective, your role might take place in the present day or during a royal celebration in the past. Everyone has a part to play, lines to learn, and something valuable to contribute to the final show. So whether you love acting or just want to try being someone new for an hour each week, this club could be the perfect fit for you!

Arts and Crafts Club with Mrs Maranzana

Join Arts and Crafts Club where children can explore their creativity in a fun and relaxed environment. This club is a fantastic way to encourage self-expression, imagination and original thinking—skills that are important not only in art but across all areas of learning.

Taking part in creative activities also supports mindfulness, helping children to focus, feel calm and enjoy the process of making something with their hands. Along the way, they will develop fine motor skills, patience, problem-solving abilities and the confidence to try new things. Whether it is painting, collage or model-making, every child will have the chance to create, relax and have fun!

Fridays

Computing Club Mrs Maranzana

Computing Club is for children who are keen to build essential digital skills in a fun, supportive environment. The children will be able to work at their own pace and will be challenged, whatever their age!

This club will explore a range of engaging activities including:

- **Coding:** Children will be introduced to the basics of programming, helping them develop logical thinking, creativity and problem-solving skills.
- **Touch Typing:** Learning to type with speed and accuracy is a lifelong skill that supports confidence and fluency in writing across the curriculum.
- **Paint Programs and Digital Art:** Using creative software tools, children will learn how to express their ideas visually, supporting both artistic development and digital literacy.

In an increasingly digital world, it is more important than ever that children feel confident and capable with technology. The children will develop some key computing skills that will support their learning across all subjects.
